Select Faculty as the user role and login using your Faculty ID and password. The default password is given by concatenating your first name in lower case, followed by you Faculty ID and '123'. The password can be changed later.

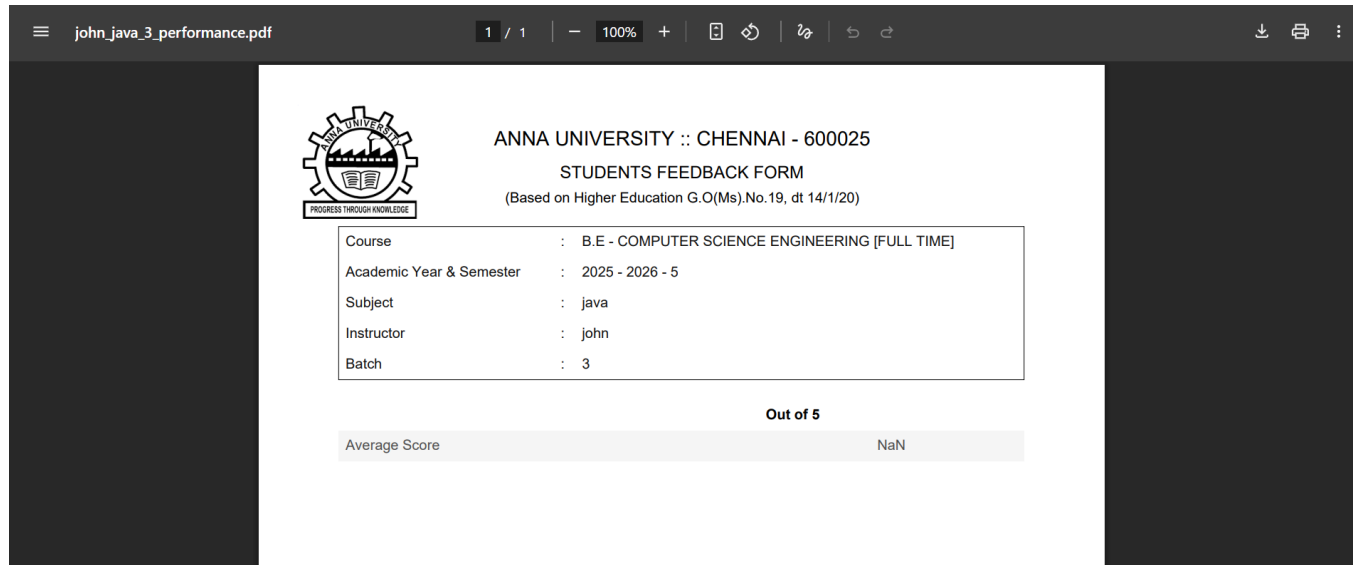

Faculty Dashboard:

Upon successful login, the faculty member is presented with a personalized dashboard. Key features include:

- **Profile Overview:** View your name, designation, and unique faculty ID.
- **Academic Year Selection:** Filter performance and feedback analytics by academic year using a dropdown menu.

- **Overall Performance Score:** Instantly view your cumulative feedback score out of 25, total number of feedbacks received, and the number of courses taught.
- **Yearly Performance Graph:** Visual representation/chart of performance trends across semesters and academic years.
- **Feedback Analytics:** Details about student feedback on various courses and parameters
- **Downloadable PDF Feedback Reports:**
For each individual course you have taught, you can download a structured PDF report containing feedback data, summaries, and analytics.

Top-right section displays your logged-in status and the logout button.

This portal allows you to access a breakdown of feedback received from students on each course you have taught.

Faculty feedback analytics are accessible only to the logged-in faculty member and authorized admins.
